7. Since presenting at TFN, has your organisation undergone any significant change(s) which our donors would be interested to know about (these changes do not need to be related to the experience of presenting at TFN).

I think the main thing is that our profile has been heightened and we are getting more people contacting us about our projects, which has been a very positive thing.

8. Do you have any other comments regarding TFN funding?

We really appreciate all the support from start to finish that TFN and the funding has given our organisation and project. It has helped us to help those that need it the most and has made a real positive difference in these women and girls lives. It has given participants new skills, knowledge, confidence and aspiration and hope to change some of their lives. So thank you.
